### Cyan Granite Tiles

Our cyan granite tile is provided with durable and hard wearing, low water absorption, hard with excellent weather durability. Cyan granite tile is Popular colored, will not fade, also is ideal building material. This granite tile has small, well defined crystals of a cyan-red cream to olive-drab color, and on the face of tile, there are occasionally non-formula by a very light grey/green color. The matrix in cyan granite tile is a predominant jet black to cyan black color.
